

PUBLIC RECYCLING RECEPTACLES... DESIGNED TO SAY RECYCLE!

Many of us are familiar with recycling at home... separating cans, bottles and paper for curbside collection. But what about the public places in which we work, relax and play? Since 1983, Windsor Barrel Works has lead the way in providing public recycling receptacles with attractive designs and eye-catching graphics.

What better way to promote recycling in your community than with attractive containers made from recycled materials? Our popular Clusters[®] recycling receptacles are made of 100% recycled plastic lumber, fastened to a sturdy *recycled* cast-aluminum frame.

Join the thousands of municipal, county, state and federal agencies, colleges, schools, and businesses that appreciate quality design and the importance of providing for the collection of recyclables in public. Contact us today for details on our complete line of products.

CLUSTERS[®] RECYCLING RECEPTACLES:

- made of recycled plastic lumber
- low maintenance
- rot, mildew & insect resistant
- UV stable; no painting
- promote the use of recycled products

EXTENSIVE PRODUCT LINE

Pictured above are some examples of Windsor Barrel Works' many products. Keep in mind that we can provide custom configurations and graphics to meet your specific needs. Please call us if what you see here gives you some ideas!

Large Flat Top (top left) This container is a two-in-one design with a fixed lid and side access. Collect different recyclables in each side or commingled material on one side and trash on the other side.

Graphic Canables® (top right) Communication is important in recycling. Graphic Canables® feature a 360° image in full color! They are perfect for school poster contests. Available in minimal quantities; use your artwork or ours.

The Mainstreet (bottom left) When the setting calls for a more traditional design or to complement existing furnishings, the Mainstreet is an excellent choice *without* sacrificing on recycled content.

Flat Top Clusters® (bottom right) Flat Tops can be customized with graphic side panels featuring your organization's logo and artwork. Use as stand alone containers or in a line up as pictured here.

STOCK SLAT COLORS:

Dark Brown

Gray

Redwood

Green
