Perforated Steel Receptacles with Custom Laser-Cut Graphics

Dimensions: 18" dia. x 35.5" h. / 25" dia. x 35.5" h.
Capacity: 25 gallons / 51 gallons
Finish: textured black, hammerstone bronze or charcoal, plus custom colors

Features & Benefits

Heavy gauge, hot dipped galvanized, fire safe steel • Durable Uni-Koat® powder coated textured finish endures severe weather and constant use • Lift-off top allows easy access to inner liner for maintenance • 12" Diameter drop-in disposal opening • Dual retainer bands secure poly bags neatly inside the receptacle • Adjustable leg levelers raise receptacle and provide stability on uneven surfaces • Germ-Fighter® leak-proof rigid plastic liner controls odor causing mold, bacteria and harmful germs

Welded Steel Receptacles

Dimensions: 25" dia. x 31" h. • 29" dia. x 34" h.
Capacity: 24 gal. • 36 gal.
Finish: black, bronze or charcoal

Features & Benefits

1" x 3/8" steel slats are welded to 1/4" thick bottom steel ring and 5/8" diameter top steel tubing • Lift off, cable secured, vandal resistant funnel top channels trash into removable leak proof rigid plastic liner • Four adjustable leg levelers for stability on uneven surfaces • All fabricated components are steel shot blasted, etched, phosphatized, preheated and electronically powder coated with polyester powder coatings • Complies with Americans with Disabilities Act mandated reach ranges

Stone Panel Steel Receptacles

Dimensions: 18" sq. x 35" h. • 21" sq. x 40" h. • 26" sq. x 40" h. • 26" sq. x 40" h.
Capacity: 24 gal. • 29 gal. • 38 gal. • 48 gal.
Finish: Brown Trim/Brown Stone • Green Trim/Brown Stone • Gray Trim/Gray Stone • Bronze/Glacier Stone

Features & Benefits

Four 5" h. x 17" w. disposal openings with 3" chutes encourage the insertion of litter • Two 12 gauge steel hinges attach the top to the body and allow top to open approx. 90 degrees permitting easy removal of liner. • Four 12 gauge galvanized steel legs hold the receptacle 4" off the ground. Screw-in leg levelers accommodate for uneven surfaces • Built in anchoring system • Germ-Fighter® rigid plastic liner has a built in antimicrobial agent that controls odors • Curved top allows water to run off • Full sized galvanized steel plates behind all stone panels for added strength • Heavy duty hot dipped galvanized steel construction to withstand years of exposure to the elements • Galvanized steel liners available upon request
